

December 2017

Dear Sponsors,

Word of Life Graduation

We just arrived home from Word of Life Graduation! Our bus full of attendees was blessed. As we watched Julian and Fellipe receive recognition for 10 months of toil we thought back to how it all started...

Suyanne was the one who ventured away first. She, at age 18, did what Brazilian youth have difficulty doing. She signed up to go study, serve, live and minister far from home (10 hours) for the 2016 school year.

Both Julian and Fellipe attended Suyanne's graduation the end of that year; they were hooked. After seeing the impact this hands-on program had on Suyanne, they were both inspired to sign up for 2017.

Today Suyanne is a teacher's assistant at the Alpha School AND she runs a kids program on Saturday afternoons at our church.

We are very pleased with the fact that these students started out at Alpha many years ago and have come full circle, joining our team as staff members.

Thanks for your part in this venture through gifts and prayers.

Yours for the kids and their families,

Ken Stucky (for the Alpha Team)

Working with kids...

Suyanne
